

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE CAPITOL.

The Capitol is situated in latitude 38° 53' 20.4" north and longitude 77° 00' 35.7" west from Greenwich. It fronts east, and stands on a plateau 88 feet above the level of the Potomac.

THE ORIGINAL BUILDING.

The southeast corner stone of the original building was laid on the 18th of September, 1793, by President Washington, with Masonic ceremonies. It is constructed of sandstone from quarries on Aquia Creek, Virginia. The work was done under the direction of Stephen H. Hallette, James Hoban, George Hadfield, and B. H. Latrobe, architects. The north wing was finished in 1800 and the south wing in 1811. A wooden passageway connected them. On the 24th of August, 1814, the interior of both wings was destroyed by fire, set by the British. The damage to the building was immediately repaired. In 1818 the central portion of the building was commenced, under the architectural superintendence of Charles Bulfinch. The original building was finally completed in 1827. Its cost, including the grading of the grounds, alterations, and repairs, up to 1827, was \$2,433,844.13.

THE EXTENSIONS.

The corner stone of the extensions was laid on the 4th of July, 1851, by President Fillmore, Daniel Webster officiating as orator. This work was prosecuted under the architectural direction of Thomas U. Walter till 1865, when he resigned. It was completed under the supervision of Edward Clark, the present architect of the Capitol. The material used in the walls is white marble from the quarries at Lee, Mass., and that in the columns from the quarries at Cockeysville, Md. These extensions were first occupied for legislative purposes January 4, 1859.

DIMENSIONS OF THE BUILDING.

The entire length of the building from north to south is 751 feet 4 inches, and its greatest dimension from east to west 350 feet. The area covered by the building is 153,112 square feet.

THE DOME.

The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The dome is crowned by a bronze statue of Freedom, which is 19 feet 6 inches high and weighs 14,985 pounds. It was modeled by Crawford. The height of the dome above the base line of the east front is 287 feet 5 inches. The height from the top of the balustrade of the building is 217 feet 11 inches. The greatest diameter at the base is 135 feet 5 inches.

The rotunda is 95 feet 6 inches in diameter, and its height from the floor to the top of the canopy is 180 feet 3 inches.

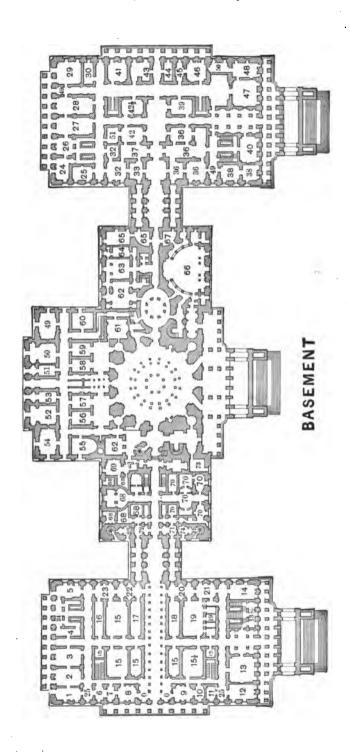

The Senate Chamber is 113 feet 3 inches in length by 80 feet 3 inches in width and

36 feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is 139 feet in length by 93 feet in width and 36 feet in

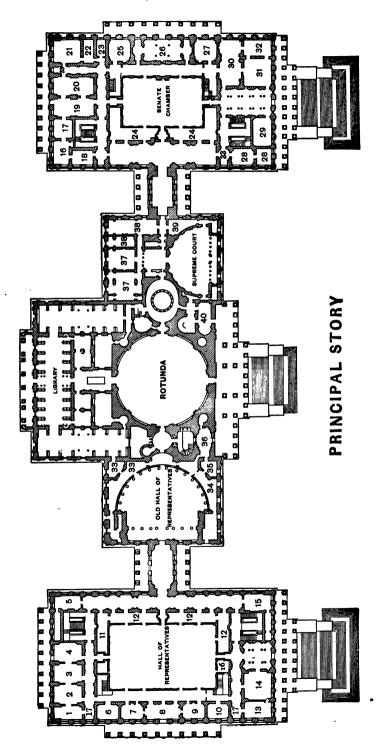

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

The Library of Congress occupies the entire western projection of the central Capitol building. The original library was commenced in 1800, but was destroyed with the Capitol in 1814 during the war with England. It was afterwards replenished by the purchase by Congress of the library belonging to ex-President Jefferson, embracing about 7,000 volumes. In 1851 it contained 55,000 volumes, and by an accidental fire in that year the whole collection was destroyed except 20,000 volumes. It was rebuilt in 1852, when \$75,000 was appropriated in one sum to replenish the collection. The new library halls, three in number, are fitted up with ornamental iron cases and iron ceilings, the whole being perfectly fireproof. The library is recruited by regular appropriations made by Congress, which average about \$11,000 per annum; also by additions received by copyright, by exchanges, and from the Smithsonian Institution. The library of the Smithsonian Institution has now been deposited in the Library of Congress, where it is secured against loss by fire. This collection is especially rich in scientific works, embracing the largest assemblage of the transactions of learned societies which exists in the country. The library was also enriched by the presentation to the Government, in 1882, of the large private library of the late Dr. Joseph M. Toner, of Washington, numbering over 27,000 volumes, besides nearly as many pamphlets. The donor, whose public spirit is worthy of emulation, added to the collection annually. The library of copyright books was removed here from the Patent Office in 1870, and all copyrights issued in the United States are now recorded in the books deposited in the office of the Librarian of Congress. The present number of volumes in the whole library, including law books, which are kept in a separate library room under the Supreme Court, is over 745,000, besides about 220,000 pamphlets. A new building to contain its overflowing stores of learning and to afford room for their proper arrangement is nearly completed, a liberal appropriation having been made by successive Congresses. This collection is very rich in history, political science, jurisprudence, and in books, pamphlets, and periodicals of American publication or relating to America. At the same time the library is a universal one in its range, no department of literature or science being unrepresented. The public are privileged to use the books in the library, while Members of Congress and about fifty official members of the Government only can take away books. The library is open every day (Sundays excepted) during the session of Congress from a seminate of Congress of Congres sion of Congress, from 9 a.m. to the hour of adjournment. In the recess of Congress it is open between the hours of 9 a. m. and 4 p. m.

The new Library Building, immediately east of the Capitol, will be completed and occupied during 1897.

THE COURT OF CLAIMS.

This court was established by act of Congress, February 24, 1855 (10 Stat. L., 612). It has general jurisdiction of all "claims founded upon the Constitution of the United States or any law of Congress, except for pensions, or upon any regulation of an Executive Department, or upon any contract, expressed or implied, with the Government of the United States, or for damages, liquidated or unliquidated, in cases not sounding in tort, in respect of which claims the party would be entitled to redress against the United States, either in a court of law, equity, or admiralty, if the United States were suable, except claims growing out of the late civil war and commonly known as war claims," and certain rejected claims.

It has jurisdiction also of claims of like character which may be referred to it by

It has jurisdiction also of claims of like character which may be referred to it by any Executive Department, involving disputed facts or controverted questions of law, where the amount in controversy exceeds \$3,000, or where the decision will affect a class of cases or furnish a precedent for the future action of any Executive Department in the adjustment of a class of cases, or where any authority, right, privilege, or exemption is claimed or denied under the Constitution. In all the above-mentioned cases the court, when it finds for the claimant, may enter judgment against the United States, payable out of the public Treasury. An appeal, only upon questions of law, lies to the Supreme Court on the part of the defendants in all cases, and on the part of the claimants when the amount in controversy exceeds \$3,000. The findings of fact by the Court of Claims are final and not subject to review by the Supreme Court.

By the act of March 3, 1883, chapter 116 (22 Stat. L., 485, and 1 Supplement to R. S., 2d ed., p. 403), called the "Bowman Act," the head of an Executive Department may refer to the court any "claim or mattter" pending in his Department involving controverted questions of fact or law. The court is required to find the facts and its conclusions of law and to report the same to the Department for its guidance and action. The same act authorizes either House of Congress or any of its committees to refer to the court any "claim or matter" involving the investigation and determination of facts, the court to find the facts and report the same to Congress for such action thereon as may there be determined. This act is extended by act of March 2, 1887, chapter 359 (24 Stat. L., 505, and I Supplement to R. S., 2d ed., p. 559).

There is a statute of limitations which prevents parties from bringing actions on their own motion beyond six years after the cause of action accrued, but the Departments may refer claims at any time, if they were pending therein within the six years. The only limitation under the Bowman Act is that the court shall have no jurisdiction of any claim barred before the passage of the act by any then existing

provision of law.

By act of January 20, 1885 (23 Stat. L., 283) and I Supplement to R. S., 2d ed., p. 471), Congress gave to the court jurisdiction over "claims to indemnity upon the French Government arising out of illegal captures, detentions, seizures, condemnations, and confiscations prior to the ratification of the convention between the United

States and the French Republic concluded on the 30th day of September, 1800." The time of filing claims is limited to two years from the passage of the act, and all claims not presented within that time are forever barred. The court finds the facts and the law, and reports the same in each case to Congress.

By act of March 3, 1891, chapter 538 (26 Stat. L., 851, and Supplement to R. S., 2d ed., p. 913), the court is vested with jurisdiction of certain Indian depredation
